

# GRASSHOPPER

- Grasshoppers are plant-eaters, sometimes becoming serious pests, especially when they swarm in millions and destroy crops over wide areas.
- Some females can be pink in color but rarely survive to adulthood due to higher visibility to predators.
- Grasshoppers have large compound eyes with a broad field of vision that can detect movement, shape, colour and distance.
- A large grasshopper can jump about a meter without using its wings.

Power: 110 VAC 60 Hz @ 2.1 Amps

Compressed Air: 3.0 CFM refrigerated (dry) @ 110 PSI

Weight: 800 lbs. (363 kg) (approx.)

Overall length: 11'6" (3.51 m), Length off the front: 2' (.61 m), Length off the back: 1'6" (.46 m)
