

EDUCATION PROGRAM FOR STUDENTS WITH SPECIAL NEEDS BOOKING FORM

Please complete all information and return via fax to 602.914.4328 or e-mail to teamcalcenter@phoenixzoo.org

About the Program: Our program is developed specifically for students with special needs. Live animals, photographs, skull models, pelts, animal figures, and more are used to engage students and demonstrate concepts. Our program utilizes a sensory motor approach – students move between stations and are encouraged to touch, smell, and feel all appropriate items. This program can be geared towards students of all ages and functioning levels. The animal families discussed are: insects, amphibians, reptiles, birds, and mammals. The "Animal Families" program is presented by Zoo Volunteers. School groups have first choice of dates. Admission to the Zoo is \$6.00.

Programs are offered Mondays, October - April by reservation only. Call us at 602.914.4333 for more information.
