(AGES 6-10)

Riddles

We live on an island much bigger than this
But our singing can cause quite a stir
Don't call us monkeys, we're older than that
You'll know us by our fur

I'm a venomous reptile,
And that ain't just me braggin'
Whenever I decide to hunt,
Watch my tongue start waggin'

I'm not nocturnal
but I am famous for my moon
Its color can be shocking
It makes the others swoon.

To find this SPOTTED Arizona cat
Look sideways, over and down
These big kitties like to swim,
But camouflage earns them the crown.

In the forests of the night
we stalk the jungle floor
we rock the stripey look;
packin' claws and teeth and more

Fun Activities

(AGES 6-10)

Riddles

No tails here - we're called apes.
Next time stop and chat
We make the forest so much better
Cuz redheads are where its at

Check out those rocks
are those big boulders?
You'd move slow like them
With a house upon your shoulders!

To keep the flies away
I'm rocking this flashy bar code
I make it look so good,
I dazzle humans by the carload

The smallest of the canines
I like fresh rodent meat
A nocturnal life and great big ears
Are how I beat the heat

This GIANT isn't green;
You're thinking of another aunt.
He has no teeth inside his head,
so chew his food he can't

Dad Jokes

A giraffe walks into school and lays down on the ground. The principal asks, "what is that lyin' there?" The teacher says, "that's not a lion! That's a giraffe!"

Did you know that a giraffe is able to grow up to 20 feet?
But they usually only just grow 4 of them.
