Fun Facts

How often do you add new features?

Every year!

- For the first time ever, we are featuring Cruise ZooLights, a drive-thru experience that is not to be missed.
- This year, expanded trails allow for even MORE sparkling lights, amazing sculptures and Polar Paradise at the Forest of Uco.
- Our incredible Wildlife Lantern Safari is back and showcases 66 new creatures – all aglow!

How long does it take to install all the lights and displays?

It takes a four-person crew approximately 12 – 18 weeks to install. Installation begins in mid-July and wraps up at the end of October.

How long have you been presenting Cruise ZooLights?

Though our traditional walk-thru event has been running for 29 years, this is the very first season for our drive-thru experience.

Does the Zoo use a lot of electricity?

The Zoo uses LED lights that use one-third the power of incandescent lights.

Will I be able to listen to the ZooLights music in my car?

Yes! You can listen to the amazing ZooLights soundtrack by tuning into our designated AM station. Information will be provided prior to entry into the Zoo. Upon exiting tune into 99.9 KEZ for all of your holiday favorites.

What happens when ZooLights is over?

Everything comes down to use the following year. The Zoo has a full-time, year-round staff that works on ZooLights and other similar projects. When they are not installing or taking down the millions of lights, they are planning, designing, repairing and building new features for next year!

This holiday season give your loved ones the gift of a Phoenix Zoo membership and let them unwrap an entire year of amazing animal adventures and incredible perks!

With 12 months of free daytime admission to more than 3,000 animals and 125 acres of adventure, discounts and much more — a Phoenix Zoo membership is the gift that keeps on giving all year long!
